BOOST DIRECT AUTO LOAN VOLUME + GROW YOUR MEMBERSHIP BASE

The Stellar Financial Group offers a turn-key auto loan program that maximizes direct loan growth and new household relationships (PFI) while eliminating all the risk of marketing costs for our lending partners.

A MULTI-CHANNEL APPROACH TO SUCCESS

Our strategic combination of direct mail, telemarketing, digital and social marketing capabilities has always set us apart from other lending sources. And now with the introduction of **SALrefi.com**, we are able to turbo-charge loan generation on a national scale.

For our lending partners this means more auto refinance leads, and over \$110,000 per year in marketing and brand awareness. Once you sign on as a lending partner, you'll have exclusive rights to all applications (regardless of source) in your charter footprint.

NO OUT OF POCKET MARKETING COSTS

All incentives, credit bureau lists, mail, postage, telemarketing expenditures, microsite, digital marketing, etc., are paid by Stellar — decreasing the risk for your financial institution. You pay nothing out of pocket until the applicants respond.

300% 
Average ROI

Plus with a higher PFI conversion than you find with indirect lending. Up to 94% open a checking account.

No up-front marketing costs

SALrefi.com is an innovative, consumer-facing web platform.
This free online service helps consumers find the best auto refinance option in their market.

SUCCESS STORY

Stellar is a great strategic partner

"Stellar's unique strategy provides an opportunity to capture current performing loans. Since the program allows direct communication with the potential members, stronger underwriting capabilities are more easily maintained and the ability to cultivate deeper relationships with borrowers is accelerated... our relationship helps us to obtain LIFERS instead of just LOANERS."

Trent Vaughn

Senior Vice President
Oklahoma Educators Credit Union

YOUR SUCCESS IS OUR SUCCESS

How Do We Impact Your Bottom Line?

- Only target new consumers that meet your credit criteria
- Specialized data manipulation that refines and dramatically improves pre-approved prospect list
- Market to households we know will save significant dollars every month
- New loans are captured with no out-of-pocket costs and begin generating income immediately
- Our program encourages households to open additional accounts
